JOIN ME TO LEARN THE PURPOSE-DRIVEN PRODUCTIVITY SYSTEM

I know your time is valuable, so I created this 4-part program.

1. Using our *STAR Goal Setting System*[™] you define the business annual goals that fit with your over-arching business big-picture purpose.
2. Learn how to choose 1 over-arching goal to be reached in each 90-day time-period
3. Learn the secret strategy for setting work priorities to focus on high-payoff activities
4. Master the *After-Action Review* system to analyze each 90-day sprint before moving to the next.

THE PROGRAM STARTS WITH A VIDEO CONFERENCE CALL JANUARY 30TH, 3:30-5:00PM.
[subsequent sessions are held February 6, 13, & 20th]

Here's what we'll do: *We take a deep dive into your current work systems and see how they align with your long-term vision.* Through this process we transform how you plan your strategies so that there is continuous movement forward. Then we creatively streamline your workflow so that each day you build on the work you did before, creating new work habits. We take you through an After-Action Review process, so that you learn how to modify goals as you move through this process. You'll experience how one quarter (a 90-day sprint) is a stepping stone to use as a foundation for the subsequent quarter. Once you incorporate this process into your work systems, it can be replicated for each new 90-day sprint. Voila! You'll have constructed a goal-getting formula, while finding more free time.

Working long hours is often necessary, but this program provides simple ways to keep you moving forward, one foot in front of the other as you build your success.
